DLP - The Deep learning and Bayesian Modeling Research Group

**Supervisor:** Dr. Tapani Raiko / Prof. Juha Karhunen

**Contact information:** By email: tapani.raiko@aalto.fi, juha.karhunen@aalto.fi

**Job description:** Research on deep learning under Dr. Tapani Raiko’s instruction. Deep learning is currently a hot topic in machine learning but it is mathematically quite demanding. So the selected person should be very good in mathematics, and preferably have some knowledge on probabilistic modeling. Good programming skills in Matlab are expected.

**Additional information:** For information on the Deep learning and Bayesian modeling research group, see [http://research.ics.aalto.fi/bayes/](http://research.ics.aalto.fi/bayes/)
